DETAILED ACTION

1. The Amendment filed on 3/6/2008 has been entered. Claims 1-63 are still pending in this Office action.

Response to Arguments

2. Applicant's arguments with respect to claims 1-2, 13, 37, 43, 49-50 and 57-63 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim 37 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Applicants are requested to explain how **"an adaptive filter system is stored via at least one computer readable medium"**. The claimed subject matter is not enabling since a computer readable medium is known to one skilled in the art for storing computer instructions.

Art Unit: 2611

5. Claim 49 is also rejected one the same ground as for claim 37 because of similar scope.

6. Claim 58 is also rejected one the same ground as for claim 37 because of similar scope.

7. Claims 59-63 are rejected because of dependency on claim 58.

Allowable Subject Matter

8. Claims 1-36, 38-42, 44-48 and 50-57 are allowed.
